

LIST OF PAPERS

Paper No. 1

The Virtual Casting: Process Simulation For The Investment Casting Industry
Adi Sholapurwalla – UES Software Inc.

Paper No. 2

The Science, Mechanics And Construction Of Investment Casting Tooling Without Rework
Dr. James A. Oti - Depuy, A Johnson & Johnson Company

Paper No. 3

Influence Of Tool Design And Process Parameters On Wax Patterns
A. Huber and H. Bleier - Battenfeld Injection Molding Technology
C. Kukla - University of Leoben
H. Loibl - Wiener Neustadt

Paper No. 4

Wax Characterization
Jeffrey C. Niles, Marcelo Anibarro, and Harvey Fielder
Remet Development Lab

Paper No. 5

Wax Temperature Control, And Its Effects On Your Casting Throughput
Bruce Phipps – MPI, Inc.

Paper No. 6

Quiescent Filling Applied To Investment Castings And Its Effect On Their Mechanical Properties
M.R. Jolly, M. Cox, R.A. Harding, W.D. Griffiths and J. Campbell - The University Of Birmingham

Paper No. 7

Ceramic Core For Hollow Investment Castings
Nipendra P. Singh and Jane M. Neubauer - S & A Consulting Group LLP

Paper No. 8

Thin Wall Titanium Structural Castings
J. Schurkamp, S. Veeck, and P. Follansbee - Howmet Research Corporation

Paper No. 9

Fef: Your Secret Weapon In Landing Top Talent
Bill Sorensen - Foundry Educational Foundation

Paper No. 10

Commercial Experience With Low Sodium Binders
Henri Bauwin - Grace Davison Silica/Adsorbents Europe

Paper No. 11

Real Time Measurement Of Viscosity In The Slurry Tank
James D. Jackson and Nipendra P. Singh - S&A Consulting Group
Shigeyuki Satoh - Ishikawajima Precision Castings Co., Ltd

Paper No. 12

High Temperature Shell Permeability
Thomas Hahn and Russ Rosmait - Pittsburg State University

Paper No. 13

Fracture Toughness Of Investment Casting Shells Using Fractography
Von L. Richards, Ph.D., and Sony Mascreeen - University of Missouri at Rolla

LIST OF PAPERS

Paper No. 14

Boilerclave™ Thermal Profiles And The Effect Of Moisture Upon Ceramic Shells During The Steam De-Wax Process
S. Jones, A. Cendrowicz, M.R. Jolly, J.-C. Gebelin, K. S. Lewis, and I. Al-Dawery - The University of Birmingham

Paper No. 15

A Systems Approach To: Grinding, Finishing, And Surface Conditioning Applications
Ross Mclean - 3m Abrasive Systems Division

Paper No. 16

Using The Six Sigma Approach To Solving A Non-Fill Problem
Scott E. Hanson - Vermont American Investment Castings

Paper No. 17

Permeable Prime Coats: Effect On Dewax Shell Cracking
Jerry D. Snow, David H. Scott and Bill S. Snyder - Minco, Inc.

Paper No. 18

The Effect Of Seal Dips On Ceramic Shell Properties And Performance
Michael J. Hendricks, M. J. Peter Wang Ph.D., Rick A. Filbrun, and David K. Well - Ransom & Randolph

Paper No. 19

The Process Of Market Expansion
Keith Chamberlain - Wyman-Gordon Investment Castings, Inc.

Paper No. 20

Case History Overview of New Investment Castings
James Capadona - Signicast Corporation
Craig Lanham - Kovatch Castings, Inc.
Tom Peterson - Hitchiner Manufacturing Co., Inc.

Paper No. 21

The Importance Of Green Mor For Autoclave Cracking
Tom Branscomb - Buntrock Industries, Inc.

Paper No. 22

Investment Casting Technology In The Czech Republic
Dr. Milan Horacek - TU Brno

Paper No. 23

The Application Of Spal™ To Increase The Use Of Revert Material In Ferrous Alloy Induction Furnace Charges
F. Schlick - Conbraco Industries, Inc.
T. La Sorda - Air Liquide America Corporation

Paper No. 24

Precision Casting In Vacuum Furnaces
Ulrich Betz and Matt Mede - Aid Vacuum Technologies
