

INVESTMENT CASTING INSTITUTE BIBLIOGRAPHY

SECTION 13
AUTOMATION

YEAR	INDEX #	SOURCE #	TITLE	PAGE AMOUNT
1987	13:1	42	Automation - Recent Applications Introduced Into the Investment Casting Industry M. J. Jago, Rolls-Royce PLC	23
1988	13:2	43	Automated Material Handling Concepts for the Precision Cast Foundry Theodore A. Tylman, Unibilt Div., Jervis B. Webb Co.	10
	13:3	43	Inspection Automation in the Aircraft Engine Business David L. Hampson, General Electric	40
	13:4	44	Quantum Leaps in Development of Investment Casting to Use of Robots; What Comes Next? P. R. Taylor, Precision Foundry Consultant	9
1992	13:5	50	Material Handling/Conveyor Needs in the Investment Casting Industry Theodore A. Tylman, Unibilt Div., Jervis B. Webb Co.	8
2003	13.6	70	Rethinking the Investment Casting Foundry as One Automated System Bruce Phipps, MPI, Inc.	38
2004	13.7	71	Casting Yields are Generated in the Wax Room Bruce Phipps, MPI Systems	5
	13.8	71	Automation and Integration of Laboratory Information in the Foundry Gail Cole & William Carothers Howmet Castings, An Alcoa Business Howmet Research Coporation, Whitehall, Michigan	13
	13.9	71	Automation of the Cut Off Process in the Investment Casting Industry R.P. Egan – A.W. Bell Machinery Pty Ltd S.R. Murtagh – A.W. Bell Machinery Pty Ltd	11
2005	13:10	72	From 7 Days to 7 Hours – “New Technology for Building Investment Casting Shells” Michael Kuegelgen, MK Technology	10

YEAR	INDEX #	SOURCE #	TITLE	PAGE AMOUNT
	13:11	72	The Automation of the Cuff-Off process in the Investment Casting Industry Rodney Egan, AW Bell	11
	13:12	72	State of the Art Technology in Robotized Grinding Systems Jim Byrne, James Beddoes, VA Technology	17
2010	13:13	77	Process Control via Automation – Case Studies (Abstract) Nip Singh, S&A Consulting Group	6
2011	13:14	78	Robotic Core and Shell Removal Has Arrived Mark Handelsman, KMT Robotic Solutions	21
