| SECTION 8 MECHANICAL PROPERTIES |
|--|

| YEAR | INDEX # | SOURCE # | TITLE | PAGE AMOUNT |
|------|---------|----------|---|-------------|
| 1980 | 8:9 | 22 | Optimizing Fatigue Properties Of A Cast Precipitation-Hardening Steel R. M. Nagan, R. Cunningham | 17 |
| | 8:10 | 26 | Fatigue Strength Of Investment Cast Low-Alloy Structural Steel R. Rechichi | 10 |
| | 8:11 | 26 | The Method Of Testing The Strength Of Casting Alloys S. Balicki | 2 |
| | 8:12 | 26 | Use Of Quantitative Stereological Analysis In Studying Structures Of Creep- Resistant Materials For Gas And Steam Turbines Jan Hakl, Czechoslovakia | 12 |
| 1984 | 8:13 | 37 | The Influence Of Processing Route On The Fatigue Behavior Of Investment Cast High Strength Steels R. Mccallum And W. Lang, National Engineering Laboratory, Scotland, UK | 35 |
| 1994 | 8:14 | 56 | The Effects Of Alloying Elements And Heat Treatment On The Magnetic Property Of Investment Cast Austenitic Stainless Steel Dr. S. C. Lee, G. D. Lin And Y.B. Chang, Tatung Institute Of Technology, Taiwan. | 16 |
| 1996 | 8:15 | 58 | Correlation Of Mechanical Properties Obtained From Integrally Attached, Integrally Cast, Separately Cast And Cut Testbars For Production Of Aluminum Investment Castings Salim Khan And Luisito Edovas, Shellcast Foundries Inc., Montreal, Canada | 20 |
| 1999 | 8:16 | 64 | The Effects On The Mechanical Properties When Using Different Geometry Testbar Coupons Salim Khan And Victor Ferreira, Shellcast Foundries Inc., Montreal Canada | 15 |

INVESTMENT CASTING INSTITUTE BIBLIOGRAPHY

| YEAR | INDEX # | SOURCE # | TITLE | PAGE AMOUNT |
|------|---------|----------|--|-------------|
| 2002 | 8:17 | 69 | Quiescent Filling Applied To Investment Castings And Its Effect On Their Mechanical Properties M.R. Jolly, M. Cox, R.A. Harding, W.D. Griffiths and J. Campbell - IRC in Materials Processing, The University of Birmingham | 25 |
