## Labor

To assist exhibitors in planning participation in the Covington Equipment Expo, please note that union labor is required for certain aspects of exhibit handling.

The decorating company uses union personnel for exhibit installation and dismantling and for material handling. The union allows permanent full-time employees of exhibiting companies to work on installation and dismantling of their own exhibits. However, these employees must be badged by show management. If additional persons are required, union personnel must be acquired through the official contractor. Non-union temporary personnel acquired from local temporary agencies will not be allowed to perform any type of work that is covered under the union contract.

## Material Handling

Great Lakes Events has the responsibility of receiving and handling all exhibit materials and empty crates. It is their responsibility to manage docks and schedule vehicles for the safe and efficient move in and move out of the exhibition.

To acquire proper licenses, write to: ASCAP Licensing Dept., 1 Lincoln Plaza, New York, NY 10023 ([www.ascap.com](http://www.ascap.com)). Failure to do so is both a violation of federal copyright law, and a breach of your contract for exhibit space.
